

Children who should receive a flu shot:

- All children ages 6-23 months
- Children ages 2-18 years old with chronic underlying medical condition
- Children ages 2-18 years old on chronic aspirin therapy

If your child needs a flu shot:

- Call your child's healthcare provider to make an appointment to receive the vaccine
- If no vaccine is available:
 - Ask your healthcare provider to place your child on a list for vaccine
 - Look for local vaccine clinics
 - Check mainepublichealth.gov for vaccine availability in your area

All children should be taught the
Keep Germs to Yourself steps!
